Child Enrollment

POS

Product Description

Precision's Bio-Slate is a state-of-the-art secure biometric tablet with an integrated UIDAI|STQC certified fingerprint scanner. The device has a separate & dedicated charging port leaving the USB port free to connect additional devices as may be needed. The Bio-Slate adapts very well to demanding, on-field usage thanks to its rugged ABS enclosure. It comes preinstalled with the hardened Android 9.0 (above) operating system and supports all Android based applications.
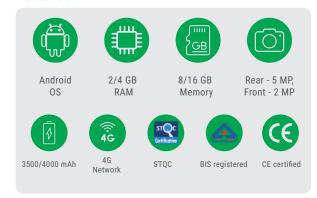

Bio-Slate optional add-on & accessories:
• Sling Bag for easy carrying
• 2" Bluetooth printer for instant printouts
• IRIS Camera for a second mode of biometric authentication

The Bio-Slate is well suited for Aadhaar ecosystem applications such as Authentication and for other corporate scenarios such as employee identity verification at facility entry points, secure access to enterprise apps and so on.

Features

Android OS
