CLOUD SOLUTIONS

Precision provides computing services such as servers, storage, networking, software, databases and much more, over the internet. Typically, these services can be availed on a 'pay-as-you-go' basis.

As contrasted with organizations having to create and own their own data center and other computing infrastructure, the cloud model allows for hiring access to compute, storage, database and other components from a cloud service provider.

Benefits of using Cloud:

Cost, Flexibility, Ubiquitous Access, Reliability, Manageability, Security, Automated Updates.

INFRASTRUCTURE MANAGEMENT SERVICES

Precision's Managed Services

Transactional services: Operational Support, Multi-Location Support, Activity based Support.

Managed services:

SME Segment: Total IT Management, Cloud support, Remote Infrastructure Management, On-demand Subject Matter Expertise, Process oriented service model, Virtual CIO Services

Enterprise Segment: Hybrid Support Model, Hierarchy based Structure, On-demand Subject Matter Expertise, Service Delivery Manager, Process Management, Cloud Services

SYSTEMS INTEGRATION

SYSTEMS INTEGRATION

Precision's approach to catering to the needs of customer spans across the entire lifecycle:

Pre-sales Consulting
Solution Architecting
Solution Implementation
Post Implementation Support
Ongoing Account Management
Overall Focus on Value Delivery

Precision has carefully nurtured strategic relationships with industry leaders such as:

HPE (Platinum Partner), Nutanix (Champion Reseller), AWS (Advanced Consulting Partner), Microsoft (Gold Certified Partner & CSP), VMWare (Business Partner), Cisco Systems, Fortinet, Red Hat, Radware, Symantec, Veritas to name a few.
